EDUCATION

University of Virginia | Charlottesville, VA *Expected May 2027*
Bachelor of Arts in Economics and Computer Science GPA: 3.58/4.00
Relevant Coursework: Econometrics, Intermediate Microeconomics, Intermediate Macroeconomics, Financial Markets, Business Analytics, Data Visualization, Calculus, Probability & Statistics, Data Structures & Algorithms

RESEARCH EXPERIENCE

Kids at Risk Action (KARA) | Minneapolis, MN *Jun 2026 – Aug 2026*
Research & Policy Analyst Intern

- Built a de-identified panel dataset of 20+ years of child-welfare case narratives in Python, hand-coding Adverse Childhood Experiences (ACE) exposure and time-to-permanency.
- Estimated Minnesota's annual cost of child-welfare inaction at $4.2 billion using CDC lifetime-cost estimates.
- Conducted cost-benefit analysis of prevention spending against Washington State Institute for Public Policy (WSIPP) benefit-cost ratios; documented model assumptions in Python and Excel.
- Authored a state appropriations policy paper and produced 6 short-form briefing videos for state legislators.

University of Virginia | Charlottesville, VA *Jan 2026 – May 2026*
Research Assistant

- Co-authored an empirical study testing whether fast-food density increases preventable emergency department (ED) visits among Medicaid-eligible populations across 62 New York counties.
- Merged NY SPARCS hospital, USDA Food Environment Atlas, and U.S. Census ACS data into a 372-observation county-year panel (2011–2016) in Stata using a HUD ZIP-to-county crosswalk.
- Ran pooled OLS with clustered standard errors and VIF tests; income was the strongest predictor ($p < 0.01$).

PROFESSIONAL EXPERIENCE

Cita Reservations | Chicago, IL *Jun 2024 – Aug 2024*
Data Analyst Intern

- Built Python predictive models scoring repeat-booking likelihood, raising customer engagement by 4%.
- Analyzed 250,000+ booking records in Excel and BI tools; findings on cancellations shaped reminder timing.

Virginia Consulting Group | Charlottesville, VA *Sep 2023 – Present*
Analyst

- Led market-sizing and competitive analysis on 3 semester-long engagements for local small businesses.
- Presented recommendations to client leadership; named Featured Presenter (2024) at the client showcase.
- Completed case-method consulting training delivered by Bain & Company.

PROJECTS

SportsBetter | Python, LightGBM, Flask *2025 – Present*

- Built a multi-sport (NBA, WNBA, MLB, EPL) value-betting platform using LightGBM models trained on time-based 85/15 splits with isotonic probability calibration.
- Implemented fractional-Kelly portfolio optimization (SLSQP) with a full covariance matrix to cap correlated risk; evaluated performance with Sharpe, Sortino, and Calmar ratios and maximum drawdown.
- Raised test coverage from 16% to 93% (91 tests); built a plugin architecture that adds a sport in about 100 lines.

TECHNICAL SKILLS

Languages: Python, SQL, R, Stata, LaTeX
Libraries & Tools: pandas, NumPy, LightGBM, Flask, Excel, Tableau, Git, Jupyter
Methods: Econometrics, regression, cost-benefit analysis, machine learning, portfolio optimization, risk modeling

HONORS & ACTIVITIES

Honors: Featured Presenter, Virginia Consulting Group (2024)
Activities: Economics Club; Student Asian Software Engineers (SASE); TheCourseForum; Club Tennis
